Re: Updated Award Information for Invitation to Bid No. 7003-052616-1, Traffic Signals & Supplies (2016)

After a review of our bid specifications for Items 3.1-3.5, we have determined that these specifications were incomplete. Therefore, we are rescinding the bid award for these five items. We will issue a new Invitation to Bid with updated specifications in the near future.

Please note that the bid awards for all other items contained in the original bid shall remain intact and are not affected by this action. Please contact me with any questions or concerns.
