

Tuscaloosa Recycles!

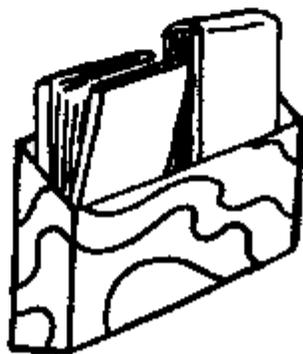

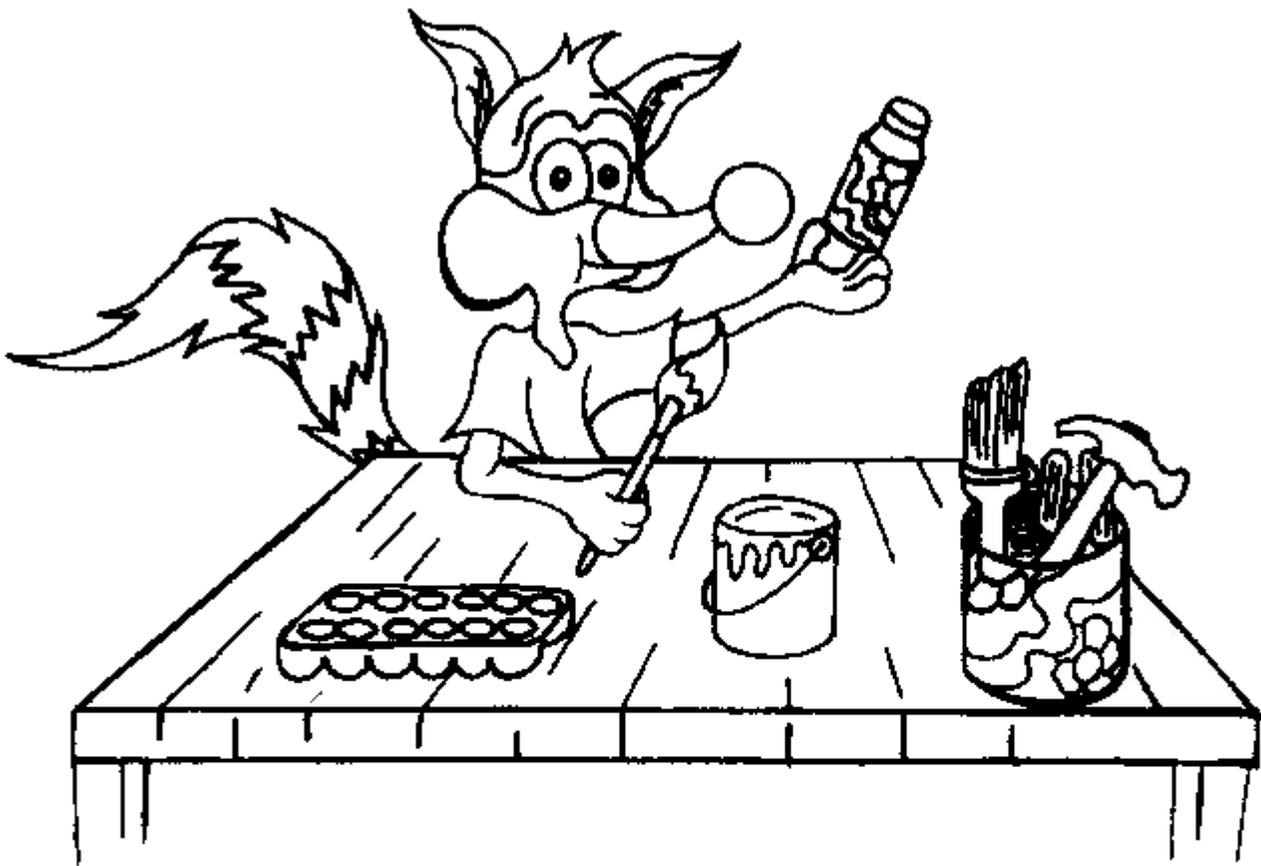

Items such as cans, paper, plastics
and cardboard can all be saved and
recycled!

The tops of plastic bottles make great shovels and the bottoms can be used as pots for flowers and plants!

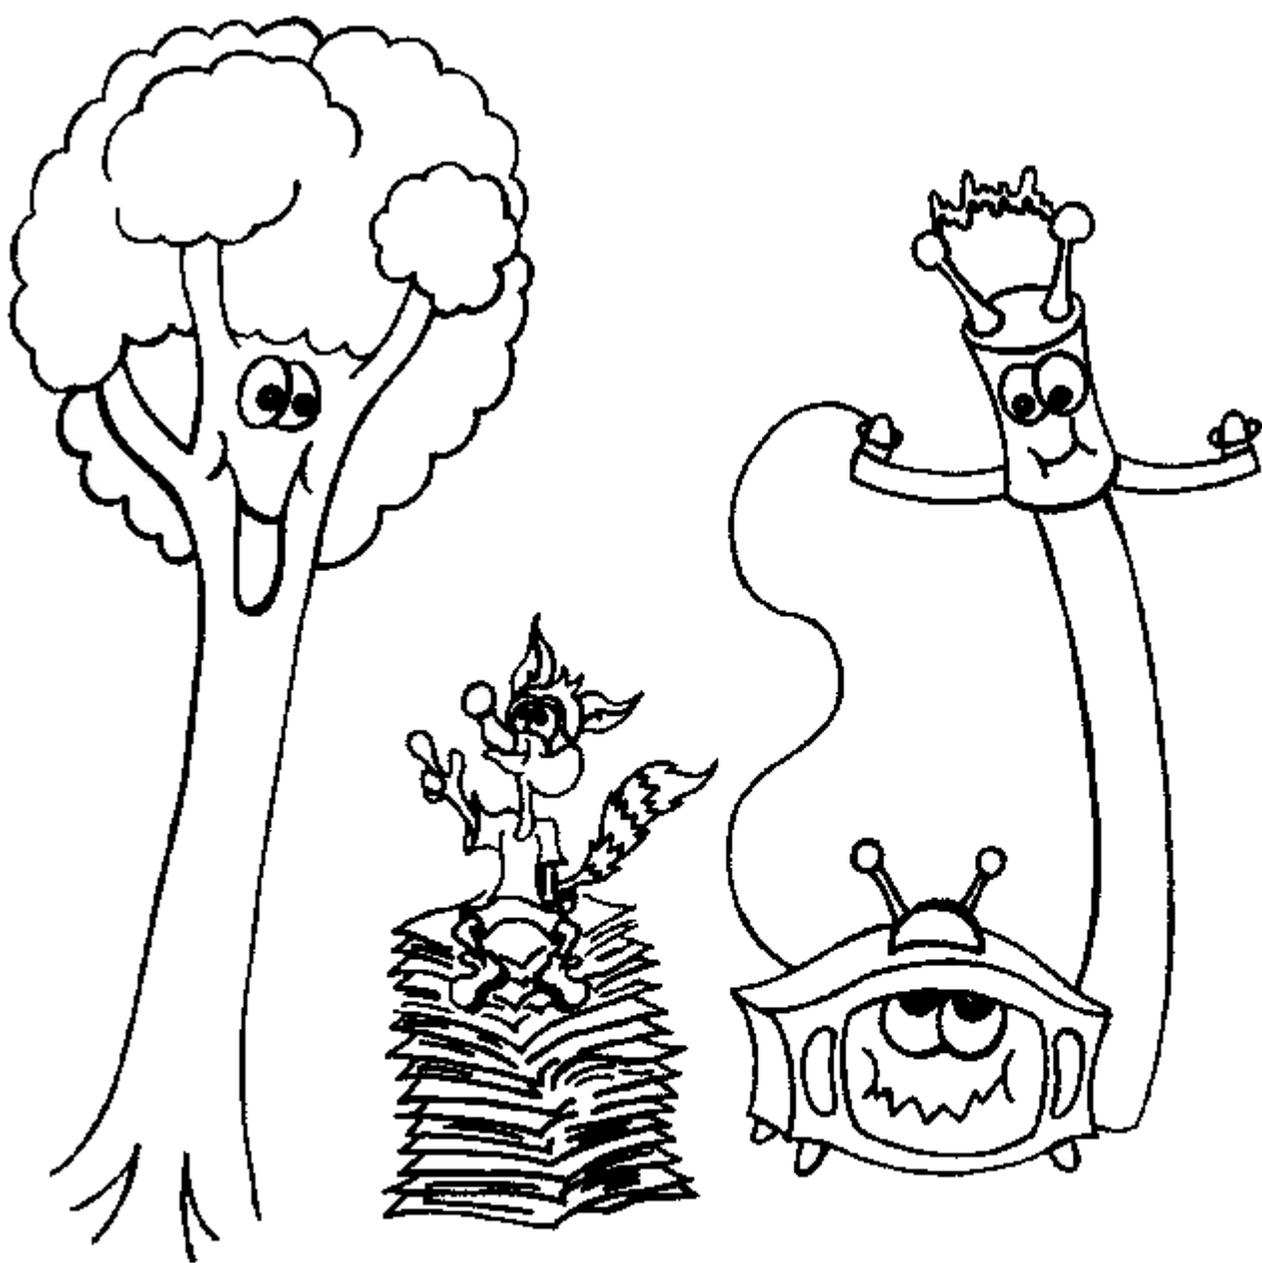

Cereal boxes can be decorated and used as organizers for books and notepads!

Items like old coffee cans and jars can be decorated using construction paper and paint to make interesting storage containers!

Recycling not only helps save trees,
but it helps reduce the waste of
energy!

Together we can.....
Reduce! Reuse! and Recycle!

Tuscaloosa Recycles!
