## Making Good

Greetings, District 7! While running for office, I made promises to help clean and revitalize our community. Progress is being made. I'm working with developers, Tuscaloosa Police Department & the City of Tuscaloosa on your behalf. The Cash Savers property has been purchased and great things are on the horizon as this whole property will be upgraded. We're just getting started!

## Closing Master's Inn & Opening New Doors

After years of arrests and violations at this location, the Master's Inn has been closed, has changed owners and changed business operation. The new Master's Inn owners are renovating the buildings and turning the location into short-term studio apartments. They will be working to reshape the reputation previously attached to this property while meeting the needs of working citizens. Affordable housing should be available at this location by the summer. This is progress that we should be proud of.

## Spring Cleaning
