**AMENDMENT NO. 1 TO CONTRACT FOR ENGINEERING AND RELATED
SERVICES TO THE CITY OF TUSCALOOSA FOR THE HARGROVE ROAD
AND HACKBERRY LANE IMPROVEMENTS PROJECT**
(A12-0949)

THIS AMENDMENT to that certain agreement made and entered into by and between the parties on the 17th day of October, 2012, is made and entered into by and between the firm of McGiffert and Associates, LLC, a professional engineering corporation, hereinafter referred to as the "ENGINEER," and the CITY OF TUSCALOOSA, a Municipal Corporation, hereinafter sometimes referred to as the "OWNER" or "CITY," on this the 10th day of March, 2014, as follows:

W-I-T-N-E-S-S-E-T-H:

WHEREAS, heretofore, the City of Tuscaloosa and McGiffert and Associates, LLC ("Engineer") entered into a contract to provide engineering and related services to the City of Tuscaloosa for design and construction of a public works project known as the Hargrove Road and Hackberry Lane Improvement Project; and,

WHEREAS, it is necessary to amend the Engineer's contract to increasing the estimated cost of construction for this from \$2,300,000 to \$2,702,500 because of extending the scope of the project to include design and environmental testing for an extension of City Walk from Third Court to Fourth Court; and,

NOW, THEREFORE, the City of Tuscaloosa and the Engineer do hereby enter into this amendment to the contract between the parties on the above date, for and in consideration of the mutual benefits moving each to the other as more particularly set forth herein as follows:

SECTION ONE. That Article 3 "Scope of Services", Subsection "A. Preliminary Design Services", Item 10. "Preparing a budget" be amended to read as follows:

"10. Preparing a budget - estimate of probable construction cost based on the preliminary design documents. The ENGINEER's estimate of construction cost of the Project is \$ 2,702,500."

SECTION TWO. That Article 14 "Compensation", be, and the same is hereby, amended to read as follows:

"ARTICLE 14 – COMPENSATION

The OWNER agrees to pay the ENGINEER the following compensation as indicated for the respective completed engineering services. In billing for all services or reimbursements, the ENGINEER shall submit to OWNER'S representative, upon request, timesheets and other documentation satisfactory to OWNER'S representative to support said fees or expenses. Hourly rates shall be billed as per Exhibit "B" adopted herein by reference, plus direct expenses.

- A. Preliminary Design:** The ENGINEER shall receive, for the Preliminary Design Services, after approval by OWNER, the sum of \$ 76,786. This amount includes any design testing unless a separate amount is stated as compensation for design testing. This amount represents the total compensation to the ENGINEER for Preliminary Design Services on all phases of the project.
- B. Final Design:** The ENGINEER shall receive, for the Final Design Services, after approval by OWNER, the sum of \$ 105,583. This amount represents the total compensation to the ENGINEER for Final Design Services on all phases of the project.
- C. Bid Phase:** The ENGINEER shall receive for Bid Phase Services, upon award of construction contract by OWNER, the sum of \$ N/A. This amount represents the total compensation to the ENGINEER for Bid Phase Services on all phases of the project.
- D. Basic Engineering SDC:** If the City determines to proceed with construction of all or any phase of the project, the ENGINEER shall receive compensation for Engineering Services During Construction, at an hourly rate as per Exhibit "B", as services are rendered, up to the maximum sum of \$ N/A.

This amount represents the total compensation to the ENGINEER for Engineering Services During Construction on all phases of the project.

E. Maximum Payments: It is understood by and between the parties that, for providing the services in subsections A, B, C and D, the maximum total cost to the OWNER on all projects or phases shall not exceed \$ 182,369, unless specifically authorized by a written Amendment to this Agreement.

The ENGINEER'S preliminary estimate of the cost of construction of the project is stated in "Preliminary Design," Article 3.A.10 of this agreement. The ENGINEER acknowledges that the OWNER'S agreement to the compensation amounts set forth herein was derived in part from ENGINEER'S estimate of construction cost. As a consequence, if the total bid award for construction of the project is more than 15% less than ENGINEER'S estimate, the OWNER may elect to adjust or receive a refund from ENGINEER in an amount equal to the percentage excess beyond 15% of the bid award of the ENGINEER'S maximum payment.

F. Design Surveying: While a certain level of surveying is required for preliminary design and included within the compensation for those services, if the parties agree that the nature and extent of the project necessitate design surveying in excess of that normally required for design by indicating a compensation for those services, then the ENGINEER shall receive compensation for additional design surveying at an hourly rate as per Exhibit "B." However, the total cost to the OWNER shall not exceed \$ 19,925 without OWNER'S written consent.

G. Easements/Rights-of-Way: ENGINEER shall receive compensation for easements or rights-of-way services for all the project or any phase at an hourly rate as per Exhibit "B," as services are rendered, up to a maximum sum

of \$ 65,000. This amount represents the total compensation to the ENGINEER for these services on all phases of the project.

H. **Advanced Services During Construction (SDC); Administration and Inspections:** If the City determines to proceed with construction of all or any part of the project and to utilize the additional engineering construction services, project inspectors and other Services During Construction pursuant to Article 5, the ENGINEER shall receive compensation for such Services During Construction, as services are rendered, at an hourly rate as per Exhibit "B". This amount represents the total compensation to the ENGINEER for these services on all phases of the project.

The cost to the OWNER for these services shall not exceed the following amounts calculated at the hourly rates as per Exhibit "B":

Construction Staking	\$ <u>N/A</u>
"Record Drawings" Plans	\$ <u>N/A</u>
All other SDC Services	\$ <u>N/A</u>

Provided, however, that the cost to OWNER stated herein is premised upon CONTRACTOR completing the project on time which, if the same is not the case due to no fault of the ENGINEER, the maximum cost will be reasonably adjusted accordingly upon written notice to OWNER. The written notice will be given to the OWNER by the ENGINEER prior to incurring the extra cost and demonstrating to the OWNER's satisfaction the reasons for incurring the increased expense.

I. **Design Testing:** The ENGINEER shall be reimbursed by the OWNER for design testing for all the phases of the project at an hourly rate as per Exhibit "B," as services are rendered, in an amount not to exceed \$ 10,651. This amount represents the total compensation to the ENGINEER for these services on all phases of the project. If

no amount is stated, all design testing costs are included in the Preliminary Design amount set forth herein.

- J. Construction Testing:** ENGINEER shall be reimbursed by OWNER for construction testing (not design testing) for all the phases of the project at an hourly rate as per Exhibit "B," as services are rendered, up to a maximum of \$ N/A. This amount represents the total compensation to the ENGINEER for these services on all phases of the project.
- K. Administration; Reimbursement of Expenses:** ENGINEER shall be reimbursed by OWNER for the actual cost of miscellaneous fees and charges related to the project and for refunds of contract documents to Bidders in accordance with law; not to exceed a maximum of \$ 6,200.
- L. Permitting, Licensing and/or Studies:** The ENGINEER shall be reimbursed at an hourly rate as per Exhibit "B," as services are rendered, by OWNER for the specialized services as indicated in Article 6 for permitting, licensing or studies in an amount not to exceed \$ 115,694, without OWNER's consent. This amount represents the total compensation to the ENGINEER for these services on all phases of the project.
- M. Prequalification of Bidders:** If the OWNER elects to prequalify bidders pursuant to applicable provisions of the Alabama Bid Law, the ENGINEER shall be compensated at an hourly rate as per Exhibit "B," as services are rendered, but not to exceed \$ N/A. This amount represents the total compensation to the ENGINEER for these services on all phases of the project.
- N. Traffic Control Plan:** The ENGINEER shall receive as compensation for development and design of a traffic control plan (TCP), after submission and review by the City's Traffic Engineer, the sum of \$ 6,000.

This amount represents the total compensation to the ENGINEER for the TCP, including revisions and modifications as the work progresses.

- O. **L.O.M.R.:** The ENGINEER shall be reimbursed by OWNER for the cost for the specialized services of assisting the OWNER in obtaining letters of map revisions on drainage projects at an hourly rate as per Exhibit "B," as services are rendered, not to exceed \$ N/A . This amount represents the total compensation to the ENGINEER for these services on all phases of the project.
- P. **Sales and Use Tax Savings:** In the event the OWNER and the Contractor determine to utilize a sales and use tax savings agreement in regard to the Project and if a compensation amount is indicated below, the ENGINEER will provide administration and coordination services to OWNER in regard to purchase orders, payments and invoices on the Project as required by the agreement between the OWNER and the Contractor. The ENGINEER shall be compensated for these services at the hourly rate reflected on Exhibit "B," as services are rendered, but not to exceed a maximum of \$ N/A . This amount represents the total compensation to the ENGINEER for these services on all phases of the project.
- Q. **Generally:** The OWNER may elect at its discretion to pay the ENGINEER a portion of the compensation due for any phase of services based upon an invoice of the ENGINEER prior to the completion of that phase or the approval by OWNER of that phase. The OWNER has the right to appeal or ask for clarification on any ENGINEER billing. In the event of termination by the OWNER, the ENGINEER shall be paid a pro rata share for the work deemed by the OWNER to be acceptably performed. This compensation is based upon services being provided in the calendar year 2014.

The ENGINEER shall maintain books and accounts of project related payroll costs, travel, subsistence, field and incidental expenses, in accordance with

generally accepted accounting principals and practices. Each of such documents shall indicate to which project or AGREEMENT they are applicable. Such books shall be available during ENGINEER'S normal business hours for the project duration and for a period of one (1) year after completion thereof for an examination by OWNER or OWNER'S representatives to the extent required to verify the costs incurred hereunder. Said books shall be maintained in the ENGINEER'S Tuscaloosa offices.

Approvals by OWNER are for maintainability and usability only, not for adequacy or accuracy of design, Code compliance or other engineering services and shall in no way relieve ENGINEER of full responsibility to provide the full range of competent professional services required herein."
