Consideration will be given to such matters as firm integrity, compliance with public policy, record of past performance, and financial and technical resources. The City will require firms to execute a “Disbarment and Suspension Statement” certifying / verifying that the firm is not suspended or disbarred or otherwise excluded under 2 CFR Section 408.220 of the government-wide non-procurement, disbursement and suspension list. This is a qualifications-based procurement of architectural professional services whereby competitors’ qualifications will be evaluated and the most qualified firm will be selected, subject to negotiation of fair and reasonable compensation.

- c. Written proposals will be reviewed and rated by a panel of qualified City employees. The rating system will consist of a numerical grading system and a pass/fail grading system, as set forth in Section 3. The City may or may not elect to interview any of the responding firms.
- d. The City has exclusive and sole discretion to determine the firm whose services will be most advantageous to the City, and reserves the right to reject all firms.

The purpose of this inquiry is to determine the interest or non-interest and the qualifications of firms in providing the professional services required. A number of firms may be asked to express their interest in regard to these services in the form of a Proposal. Following the receipt of Proposals, a certain firm or firms may be selected for further consideration.

Section 2. General Scope of Services

The City of Tuscaloosa seeks the services of a professional architectural firm which has the knowledge, experience and expertise to perform the services as requested.

The project of interest is as follows:

Alberta Park. The concept of the proposed Alberta Park is intended to be a relatively formal, passive park located on University Boulevard at the site of the former park in front of the former Alberta Elementary School building. The proposed park is planned to have a strong connection to the proposed City Technology Center to be located adjacent to the park to the West. It will serve many purposes including as an outdoor area for the Technology Center, a location of reflection and honor for those who served and volunteered in the hours and days after the April 27, 2011 tornado, a focal feature of the soon to be connected City Walk shared-use path, an outdoor classroom for the neighboring Alberta School of Performing arts, a gateway element for visitors to the City from this eastern route, and a central point and source of pride for the Alberta community. The park is planned to have a recessed lawn area which would also serve as a storm water quality element, a formal fountain with a brick seat wall, numerous large deciduous trees and palm trees, and other amenities including bike racks, benches, etc.

Services may include basic architectural services such as schematic and final drawings, plans and specifications, estimates of construction cost, bid phase and services during construction; services may also include studies, investigations, evaluations and engineering services if required.

The firm must comply with all applicable state, local, and federal regulations related to the services provided to the City. The City reserves the right, subject to negotiation and agreement, in writing, with the selected firm, to either expand or limit the scope of services as needed.

The selected firm will be required to have sufficient personnel to complete the tasks required by this scope of services.
