Additional items for **ELECTRONIC/DIGITAL/VIDEO** sign types

- For any sign that contains electronic, digital or video components, the business owner or manager **MUST** acknowledge their understanding of the "Limitations & Restrictions of Electronic, Digital, or Video Signage" by signing below.

Some sign applications shall require a State of Alabama registered architect or engineer's seal and a written statement certifying that said sign structure(s) complies with the building code requirements concerning the same.

Limitations & Restrictions of

Electronic, Digital, or Video Signage:

The use of electronic, digital or video technology in signs is permitted and allowed, subject to the following limitations and additional restrictions:

- A. Such technology shall be programmed so that the message or image on the sign changes no more often than once every eight (8) seconds.
- B. There shall be no effects of movement, blinking, animation, scrolling, flashing, scintillation, or similar effects in the individual images.
- C. Changes of image shall be instantaneous as seen by the human eye and shall not use fading, rolling, window shading, dissolving, or similar effects as part of the change.
- D. Video technology in signs shall use automatic level controls to reduce light levels at night and under cloudy and other darkened conditions, in accordance with the following standards. All electronic, video or digital display unit signs shall have installed ambient light monitors, and shall at all times allow such monitors to automatically adjust the brightness level of the electronic sign based on ambient light conditions. Maximum brightness levels for electronic, video or digital display signs shall not exceed five thousand (5,000) nits when measured from the signs face at its maximum brightness, during daylight hours, and five hundred (500) nits when measured from the signs face at its maximum brightness between sunset and sunrise, as those times are determined by the National Weather Service.
- E. Any changeable copy sign using electronic, digital or video technology which malfunctions, fails or ceases to operate in its usual or normal programmed manner, causing motion, movement, flashing or any similar effects, shall be restored to its normal operation conforming within this section within forty-eight (48) hours unless the Director of the Tuscaloosa Department of Transportation considers such malfunction to be a hazard to the health, safety and welfare of the public and orders the sign to be turned off, disconnected or disabled.
- F. Any changeable copy freestanding sign using electronic, digital or video technology shall not exceed fifty (50) square feet in area excepting therefrom billboards as set forth in subsection (4).
- G. No billboard or sign containing a commercial message related to goods, services, products or other commercial activities that are not offered on the same premises on which the sign is located shall be permitted and allowed except in those locations where billboards are permitted and allowed.
